Notes for DAVID LIPE KLOCK:

Klock Connections, Issue # 18, January 2003

David Lipe Klock (Lipe Klock, Jr., Lipe Klock, Amos Klock, Adam J. Klock, Johannes J. Klock, Johannes Klock, Hendrick Klock) is a licensed professional engineer in New York. He earned a Bachelor of Technology degree from Rochester Institute of Technology in 1974. David has completed numerous professional development programs in management and technical courses such as power distribution design, lighting design, and application of fire detection and alarm systems. He has worked on such projects ranging from a control center for Metro-North Commuter Railroad in Grand Central Terminal to 34.5 Kilo-volt electric power services. He has designed UPS systems for data centers as well as specialty lighting and controls for operations centers and auditoriums. He works with Lynn Bellenger, PE, Nancy Jendryaszek, RA, and David Meyers, PE at Pathfinder Engineers in Rochester, New York..

David married Sharon Boroski on August 30, 1975. They have a daughter, Laura who was born in 1981. Laura is an Architecture Student at Syracuse University. She is in her fourth year. Architecture is a five year degree. Laura spent a semester in Florence, Italy as an architecture student. David and Sharon spent 3 weeks with her

traveling Europe prior to Laura starting the semester in Florence. They had a great time, according to Dave. They visited Italy, Austria, Germany and France. They did not get far enough north in Germany to visit the area the Klocks came from, but they did find the town of Hassel according to Dave. David said he was mistaken for German several times while traveling in Europe.

Mr. Klock is also active in volunteer activities in his community. He is the Council President for the local chapter of the American Diabetes Association. For the past three years he has been the chair person for the organizing of the Tour-de-Cure, a fund raising bicycling event for the American Diabetes Association. Over the past five years the event has grown in both ridership and revenues. Tour " 97 " included 600 riders and raised more than \$90,000, making it one of the top five such events in the country for the ADA. David is also involved in youth engineering programs for the Rochester Engineering Society and served on local citizens committees to improve traffic problems in his neighborhood.

David is a member of the Audi Quattro Club. He takes his Audi to track events and driving schools. The members drive their cars on the race tracks and learn some of the driving skills that race car drivers do. It is a controlled event (no racing) but it is a great deal of fun, according to Dave. He has attended schools at Watkins Glen and New Hampshire International, driving on the road course there.

When I first got a computer and was surfing the net, I found an article about David's work for the American Diabetes Association and his fund raising activities with the Tour-de-Cure. I have class II Diabetes and was looking for information on Diabetes. I was surprised to find another Dave Klock and I wanted to contact him and thank him for all his work on the Tour-de-Cure. According to Dave, there has been an increase in diagnosed cases of diabetes, especially type II among children. I have a six year old grandson, Shane who was diagnosed with diabetes two years ago. It has been hard on his parents and all of us. He is the first child, that I know of, in my family with Juvenile Diabetes. It is because of people like Dave, and thousands of others that a cure will someday be found.

I e-mailed Dave and thanked him for all his hard work on Diabetes, we started e-mailing each other. He invited me to attend his family Reunion at Fort Klock in August of 2000. That is the first time I met David and Sharon... I was able to meet several members of his family, including his Uncle Adam Klock and visit the Fort for the first time. Dave was the first person to tell me about Fort Klock. He stirred my interests in finding my own roots. Which got me involved in genealogy research, which got me involved in the 2001 Klock Family Reunion, Fort Klock and this Newsletter.

Many Thanks Dave, from my Grandson and I for all your hard work...

I found your Klock Connections while searching for information on my family. Arthur and Mary Lampman

Herdman are my great-great grandparents. As you have listed in your information, they had a son Frank, who was my great grandfather. Frank married Minnie Herdman (1st cousins) and they had one son. You have his name listed in your information as Frank Jr. This is incorrect. His name was Leon Nelson Herdman. He married Eunice Knapp and they had twin sons, Richard Frank and Robert Edward.

I was thrilled to find the background information on my great-great grandmother and love the connection to Fort Klock, Nellis Tavern and the like.

Thanks for all your hard work and research.
